Target version:			
Description			
Hoi			
Wäre gut wenn man in die Map zoomen könnte (normale Map und die von den Large Scale Commands)			
Außerdem wäre es gut wenn man beim Verschieben noch in nem blauen Rechteck oder so angezeigt bekommt wohin die Region kopiert wird ;)			
MFG Atur

- Status changed from New to Rejected

Please try to keep issues in English, so everyone can see what is currently on the list and what isn't. Also please keep requests separated since it's otherwise hard to track them.

Good example in this case: I don't see any way to implement zooming (as discussed on the forums several times), I would however implement the region highlighting for copy/move actions in the large scale command window. Now I could only accept or deny both. This time I'll go with denying both but opening another feature request myself that will deal with the second issue.

Thanks anyway, good ideas :)
